“I hold in my hand a product called CleanWell which you can find at cleanwelltoday.com. CleanWell makes hand sanitizer sprays, I have the one in original scent – there is another spray available in orange vanilla. CleanWell also sells other disinfectant products for personal use, like hand wipes and products to clean around the house. I really like this hand sanitizer because it comes in a nice small 1oz size that I can easily put into my pocket or bring on a plane. I also really like the how it’s a spray bottle, unlike the normal gel bottles, and while this one comes in a small container it has up to 225+ sprays, it’s alcohol free, safe for kids, and is moisturizing. I’m using it now as we speak, and it has a very gentle feel and great smell. Highly recommend CleanWell, go find it on cleanwelltoday.com.”
